Comment: I was somewhat disappointed in the draft report as it is not addressing the statement in the Vision to support life-long learning. There is not much said on this. As The Vision leads on the question of life-long learning perhaps life-long learning deserves a chapter on its own.

As you will see from my website I teach bridge but there are many other, institutions, clubs and societies which could be listed and described as deserving of mention.

I understand that a lot of this is voluntary stuff and difficult to define and may ebb and flow, but perhaps it should fit in somehow.

I just thought I'd mention it as it seems quite an omission.

John Cumming
